Cigarette test DIN EN 1021-1	passed
Azo dyes	
Aryl amines in accordance with applicable legal provisions EN 14362-1 & 3	not verifiable
Allergenic dispersion dyes in accordance with DIN 54231	not verifiable

Further test results are available from Cotta Collection AG on request.

COVER PROPERTIES

This synthetic leather is a smooth PU synthetic leather. The PU finish generally has a natural-looking leather appearance, ranging from smooth to strongly textured. Synthetic leather is characterised by its durability, wear resistance and ease of cleaning. Simply wiping with a damp cloth is all the cleaning needed. Do not use oily, greasy and abrasive agents, as they can damage the surface. Colour transfer from cushions and/or clothing does not represent a defect of the material. Deviations in colour and texture are typical of this type of product and do not constitute grounds for complaint.
