PCP pentachlorophenol, TeCP, TriCP SOP 4309	not verifiable
Chromium (VI) content DIN EN ISO 17075	not verifiable

Further test results are available from Cotta Collection AG on request.

COVER PROPERTIES

Yak is a corrected grain, heavily embossed and coated leather.

Since leather is a natural product, the individual characteristics of each hide are nevertheless visible and make each sofa an unmistakably unique piece.

The back and arms are covered with a high-quality split leather.

Wiping with a clean, damp cloth is generally all it takes to clean the leather. Do not use aggressive cleaning materials or care products containing grease, which may damage the surface. If in doubt, ask your retailer.

Do not place your furniture immediately next to sources of heat (radiators, fireplaces) and avoid strong, direct sunlight. Avoid the transfer of colour from clothing or throw cushions. Variations in colour and texture are typical of this product and are no grounds for claims or complaints.
