PCP pentachlorophenol, TeCP, TriCP SOP 4309	not verifiable
Chromium (VI) content DIN EN ISO 17075	not verifiable

Further test results are available from Cotta Collection AG on request.

COVER PROPERTIES

This is a corrected, embossed and coated leather. As leather is a natural product, the individual characteristics of every hide are visible, contributing to the uniqueness of every leather covering and underlining its elegance and value. Wiping the leather with a clean, slightly damp cloth is usually enough to clean it. Never use aggressive cleaning agents and grease-based care products that could attack the surface. Do not position your furniture directly adjacent to heat sources (radiators, fireplaces) and avoid strong, direct sunlight.

Avoid colour transfer from clothing or cushions. Deviations in colour and texture are typical of this type of product and do not constitute grounds for complaint.
