Cigarette test DIN EN 1021-1	passed
Azo dyes	
Aryl amines in accordance with applicable legal provisions EN 14362-1 & 3	not verifiable
Allergenic dispersion dyes in accordance with DIN 54231	not verifiable

Further test results are available from Cotta Collection AG on request.

COVER PROPERTIES

It is a typical feature, occurring with normal use, that flat woven fabric tends to become fluffy, leading to the formation of lint (pilling). Fibres from other materials can also adhere to the fabric. Use a lint and bobble remover to remove pilling. Pilling is caused by the properties of the fibres and does not constitute grounds for complaint.

Colour transfer from cushions and/or clothing does not represent a defect of the material. Deviations in colour and texture are typical of this type of product and do not constitute grounds for complaint.
