

PRODUCT

1S CORD

Upholstery fabric category	CORD
Material	100 % POLYESTER (PES)
Care labelling	

QUALITY FEATURES

The product complies with quality requirements according to DIN EN 14 465:2006.

Abrasion resistance EN ISO 12947-1 & 2	80,000 cycles
Pilling EN ISO 12945-2 - 2000 cycles	4
Light fastness EN ISO 105-B02 - method 2	5
Colour fastness to rubbing EN ISO 105-X12	5
Cigarette test DIN EN 1021-1	passed
MAK amines, azo dyes EN 14362-1 & 3	not detectable
Allergenic & carcinogenic dispersion dyes DIN 54231	not detectable

Other test results are available at request from COTTA Collection AG.

PROPERTIES OF THE COVER FABRIC

A versatile fabric with a characteristic ribbed texture and appealing colour palette, which captivates with its soft feel and inviting appearance. Durable yet pleasant to the touch, it is ideal for stylish furniture and cosy accessories.

Discolouring due to cushions and/or clothing fabrics does not represent a defect of the upholstery fabric. Colour and texture deviations are typical for this product and do not entitle users to any claims. Interaction of pressure, heat and humidity may lead to pile displacement (pressure marks). This property is referred to as indentation or seating marks and is a typical feature that does not represent minor quality in any way.

Pilling is a natural phenomenon caused by daily use and cannot be avoided. Pilling can be removed with a lint remover.
